

It's Just You

LMNT

You can do the things
That cant be done
You can win the fights
That cant be wonWhen youre on a mission
You see it through
'Cause the save the world thing
Is what you doThats the way it has to be
It just comes so naturallyIts just you, doin the impossible, its you
Youre practically unstoppable
Its you, totally unstoppable
Its you, its you, its you
Youre Kim PossibleWhen the earths in trouble
And were in distress
We can call you, beep you
Send an SOSsituation resolved
You never say maybe
From here on out its
Plain that, babyThats the way it has to be
It just comes so naturallyIts just you, doin the impossible, its you
Youre practically unstoppable
Its you totally unstoppable
Its you, its you, its you
Youre Kim PossibleIts not a secret, or a sign
It's not the way the stars align
Its just exactly what is true
Not a superhero, its just youIts just you, doin the impossible, its you
Youre practically unstoppable
Its you, totally unstoppable, it's you
Youre simply Kim PossibleIts you, doin the impossible
Practically unstoppable
You're totally unstoppable
It's you, it's you, it's you
It's you baby
