Before the Winter

Stratovarius

Before the summer turns to winter
Before the dreams will turn to snow
I see the yellow leaves are falling
And soon I know I have to goBut I'll be back before the summer
Next year you're in my arms again
The winter breeze will send my message
It will keep you warm until thenThe path to home is long and winding
I'll keep the flame alive for you until I am back
You and I will walk that road together
I'll show that all the dreams are trueIf you only let them be before the winter
Before the summer turns to winter
Before the dreams will turn to snow
I see the yellow leaves are fallingAnd soon I know I have to go
The path to home is long and winding
I'll keep the flame alive for you until I am back
You and I will walk that road togetherI'll show that all the dreams are true
If you only let them be before the winter
