

# The Regular G

## Days Away

Is this less than what I can handle or is this more than you deserve?

I bet you build me up this high just so I can crash a little harder.

I wish you would call me over there.

I wish you would come here on a start.

Wait, I can't wait another day.

I wish you would come here on a start.

I bet it happens again and again and again until it happens again.
