

# Emergency Broadcast

## Playdough

even now i hear the sound  
of notes up high that won't come down  
i know what it is, but want your two cents  
i'll give you one guess after some hints there is no whistle; no hearing test  
emergency broadcast or birds nest  
is it your feedback mr. swann?  
no, it's the smoke alarm listen come on listen come on batteries sit there on the shelf  
the alarm won't grow legs and change them itself  
i wish it would though cause I'm stuck in this head  
thinking of the things that i'll do instead hold my breath  
count the tile  
catch a glance  
walk the aisle click the heels  
check the time  
watch ice melt  
change the rhyme pray for rain  
watch my weight  
stretch the truth  
save the date find the beat  
reverse the curse  
sign the card  
finish the verse hear the band  
hum along  
sound it out  
learn the song
