

Chains

Bellarive

Search my heart
Let mercy overtake the parts
Of my doubting
Lift my head
That faith will overtake the ways
Of my fear If I could just touch You
I know I would be healed
For you will overcome
with power eterning
My very soul you see
So give me faith if I believe Your name can save
then I would trust in what you promise
if you can overcome the grave
then you will overcome me
Jesus overcome me
Loosen my chains Lord of all
Bring courage
Just enough to fall
At your feet
[]
Give breath o
just enough to save
Jesus If I could just touch You
I know I would be healed
So give me faith if I believe Your name can save
Then I would trust in what you promise
If you can overcome the grave
Then you will overcome me
Jesus overcome if I believe Your name can save
Then I would trust in what you promise
If you can overcome the grave
Then you will overcome me
Jesus overcome me
Loosen my chains Chains loosen your grip
Chains loosen your grip
Let freedom rise
the blood of the Son commends you x4 If I believe your name can save
Then I will trust in what you promise
If you can overcome the grave

Then you will overcome me
Jesus overcome me
Loosen my chains
