

# Taking Too Long

## Wipers

Didn't realize the sign  
Because it was a sign of the times  
What was coming from the sky?  
You never, ever change your mind'Cause it's taking so long  
Didn't realize the crime  
Thought you had it mastermind  
What you seek is what you find  
There's no one else because you're blind  
And it's taking so long  
It's taking, taking, taking!  
Didn't realize the time  
What is really on top of your mind?  
When they're coming from the sky  
You never, ever change your mind  
And it's taking so long  
It's taking  
So long...
