

Neighbor, Neighbor

ZZ Top

Neighbor, neighbor
Why you messin' in my life?
Neighbor, neighbor
You've been talkin' to my wife Tellin' her you seen me
Runnin' wild the other night
Runnin' wild the other night A neighbor, neighbor
There's always one in every crowd
A neighbor, neighbor
Tellin' lies and talkin' loud You better watch your step now
You might fall off your cloud
You might fall off your cloud Now I was walking down a dusty road
When along came a neighbor of mine
He saw me walkin' with my head hung down
He just had to stop and pass the time A neighbor, neighbor, neighbor
Floatin' in the salty brine
Floatin' in the salty brine
