Spilt Milk

Matt Duke

Some cries with babies died
So why then, bring him in
I gotta keep the world at bay
So how do you expect to liveAnd I just wanna
Start over, start over (x2)So go find that boy, the friend of mine
The half-lit broken taught with the glassy eye
And every mistake I make is one more dig to the muddy grave
How do you expect to liveI just wanna,
Start over, start over (x3)
.....I slay ghosts now,
So watch me burn,
Burn, burn this down the the groundAnd I just wanna,
Start over, start over (x7)
