

# Spilt Milk

**Matt Duke**

Some cries with babies died  
So why then, bring him in  
I gotta keep the world at bay  
So how do you expect to live And I just wanna  
Start over, start over (x2) So go find that boy, the friend of mine  
The half-lit broken taught with the glassy eye  
And every mistake I make is one more dig to the muddy grave  
How do you expect to live I just wanna,  
Start over, start over (x3)  
.....I slay ghosts now,  
So watch me burn,  
Burn, burn this down the the ground And I just wanna,  
Start over, start over (x7)
