Like Fire

Joan Armatrading

I'm trembling, you've got the touch
I'm under, and you got the power
When I feel your body next to mine
I know everything is gonna be alrightHey, I'm trembling, I'm all on edge
I'm under, and you've got the power
You can be fire, or sugar sweet like honey
Like honey, when you wanna beHey, I'm trembling and you've got the touch
When I hear you call my name, gives me the feeling that I love so much
You can be fire, or sugar sweet like honey
Like honey, when you wanna beWhen you're around me, it's like the sun up above
You may be fooling, but I'm deep in love
Let's stay together, that's how it should be
I'll only leave, if you leave meI'm walking, I'm in the air
Who needs money to ease the care
All it takes is just one kiss
Just one kiss will buy off a million tearsI'm walking, I'm in the air
You can be fire, or sugar sweet like honey
Like honey, when you wanna be
I'm walking, I'm in the airWhen I hear you call my name, gives me the feeling that I love so much
I'm under, and you've got the power, I'm under, and you've got the power
Call me on the telephone, just to say you love me and how much
I'm under
