

A Drowning

Black Black Hills

Baby I'm falling
So deep with no word of warning
You do that to me
Yeah, you do that to me.
So first of all I'll strip right down
And show myself for what I really am
You do that to me
You do that to meThe river ran wild
The river ran deep
As the current grew stronger
It made for the seas
And I felt like a child
Who was drifting asleep
Thinking of you
Thinking of youI will let all the water seep right in
I will open up my mouth and chin
Just to let it in
Just to let it inAnd just as it floods into my lungs
I won't be conscious, it wont be long
You do that to me
You do that to meThe the river ran wild
The river ran deep
As the current grew stronger
It made for the seas
And I felt like a child
Who was drifting asleep
Thinking of you
Thinking of youAnd I'll sink so very peacefully
Commit my broken body to the sea
You do that to me
Yeah, you do that to me
You do that to me
Ay, you do that to meThe river ran wild
The river ran deep
As the current grew stronger
It made for the seas
And I felt like a child
Who was drifting asleep
Thinking of you

Thinking of youAnd the river runs so deep
And the river runs so deep
