

# Just a Little Something

Gerald Levert

Oh baby, oh baby Say you gotta leave, say you gotta go  
Say love and understanding is what I fail to show  
I don't understand why you wanna leave  
I've tried my best to please you And girl you got to believe me  
I just want you to be happy, baby  
And if not with me, I'll understand  
But for now just take my hand, let me give you Just a little something  
To remember me by  
Just a little something  
Before you say bye bye, bye bye I never thought that our love would end this way, baby  
Now you're packing your bags and you're leaving  
I hoped and prayed I'd never see this day  
I want you to leave me with a smile, baby  
So put down put down your bags and stay a while, let me give you Just a little something  
To remember me by  
Just a little something  
Before you say bye bye, bye bye Give me one last hug, is that too much?  
One last kiss, I know you're gonna miss it, baby  
One last touch baby, you can't get enough  
Baby if you love me then think twice before you leave me Just a little something  
To remember me by  
Just a little something  
Before you say bye bye, bye bye I'm down on my knees, begging you please, baby  
How am I supposed to live without you?  
How am I supposed to live without you? How? How?  
Without you everything is gone, let me give you To remember me by  
Just a little something  
Before you say bye bye, bye bye I'm down on my knees begging you please baby, please, please, please  
I'm hurting, I'm burning, don't leave me baby  
Oh let me give you something to remember, I'm, I'm crying for you  
Let me give you something baby, let me give you something baby To remember me by  
Just a little something  
Before you say bye bye, bye bye Just a little something  
To remember me by  
Just a little something  
Before you say bye bye, bye bye
