

Junior

Widespread Panic

Hold me tight, if you want me to
Hold me darling, you want me to
I love you child, I love you babe I love your mamma, your sister too
I love your dog, I hope he love me too
I love you child, I swear I love you baby Love your mamma, your sister too
Love your dog, I hope he love me too
I love you babe, love you child I love you mamma, your daddy too
You showed me the world, when I was only two
I love you babe, I love you child I love you since you were born
I love you more and more and more (he begins mumbling here...)
