# Think It Over

## Wave

You say, you wanna see the city lights
'Cause they shine so bright and they're calling you
Before you go, you need to know
I won't stand in your way but I want you to stayI remember those summer nights
When I held you tight and it felt so right
I thought what we had would never end
And now you're leavingBaby, think it over, think it over
Before you walk away, baby, think it over
Think it over, before you turn the page
I want you to stayYou say, you're going to be a star
But to me you are and I never would ask you to change
I really want you to chase your dreams
But the pain it leaves, it's just so hard on meI remember those summer nights
When I held you tight and it felt so right
I thought what we had would never end
And now you're leavingBaby, think it over, think it over
Before you walk away, baby, think it over
Think it over, before you turn the page
I want you to stayStay till the morning comes
I wanna change you mind
One last chance for you to see
What you're leaving behindI remember those summer nights
When I held you tight and it felt so right
I thought what we had would never end
And now you're leavingBaby, think it over, think it over
Before you walk away, baby, think it over
Think it over, before you turn the page
I want you to stayBaby, think it over, think it over
Before you walk away, baby, think it over
Think it over, before you turn the page
I want you to stay
