# We Love You, Jesus

## Alexis

Opening the door to dine with Him
Traveling to earth to let us in
Laying down His glory crown of old
Setting up the wedding feast foretoldOh, we can't contain our love
We turn it up loudWe love You Jesus
For so many reasons
For death and life and freedom
Even now we love YouWhat manner of love is this that You would say?
Your sin is mine, I'll take it to the grave then rising
Death oh, death where is your sting today?
Death is swallowed up in victoryOh, we can't contain our love
We turn it up loudWe love You Jesus
For so many reasons
For death and life and freedom
Even now we love YouWe love You Jesus
In and out of seasons
In valleys and on top of mountains
Even now can we sing?
We love You Jesus, Jesus, Jesus, JesusWe love You Jesus
For so many reasons
For death and life and freedom
Even nowWe love You Jesus
For so many reasons
For death and life and freedom
Even now we love YouWe love You Jesus
In and out of seasons
In valleys and on top of mountains
Even now can we sing?
We love You
