

# We Love You, Jesus

## Alexis

Opening the door to dine with Him  
Traveling to earth to let us in  
Laying down His glory crown of old  
Setting up the wedding feast foretoldOh, we can't contain our love  
We turn it up loudWe love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love YouWhat manner of love is this that You would say?  
Your sin is mine, I'll take it to the grave then rising  
Death oh, death where is your sting today?  
Death is swallowed up in victoryOh, we can't contain our love  
We turn it up loudWe love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love YouWe love You Jesus  
In and out of seasons  
In valleys and on top of mountains  
Even now can we sing?  
We love You Jesus, Jesus, Jesus, JesusWe love You Jesus  
For so many reasons  
For death and life and freedom  
Even nowWe love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love YouWe love You Jesus  
In and out of seasons  
In valleys and on top of mountains  
Even now can we sing?  
We love You
