

# Get On

Jim Bianco

Hey  
Well, you've been wearing your burden like a two ton chain  
Take it off, throw it down  
Send that petty party packing on the midnight train  
Get it gone, ship it out  
Call him all curvy, skinny, don't matter ugly, pretty  
Let's talk it down and dirty  
If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on  
Don't let it slip away, it's all about today  
Hear all the people say, get on, baby, get on  
We got that boom, boom, bumping like a downtown quake  
Wake it up, shake it down  
We got the girls, all jumping at the Tucson Lake  
Feel the love moving 'round  
The party's getting hotter, we got the fire, water  
Turn up some Joe Cocker

If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on  
Don't let it slip away, it's all about today  
Hear all the people say, oh, get on, baby, get on  
Get on, get on  
Get on, get on, get on, get on, help me, ladies  
Get on, get on, get on, get on, turn it up  
Get on, get on, get on, get on, turn it up  
Get on, get on, get on, get on all day  
If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on  
Don't let it slip away, it's all about today  
Hear all the people say right now  
We'll get you feeling right, just rock it and we'll talk  
We'll rock it all night

Oh, get on, baby, get on, life, get on  
Don't let the meek get on, that was get on
