

Long Road To Hell

Avicii

Yeaaaaaa!

So he goes.

He went down to the crossroads.

He said down and take his eyes from love.

Everyone has a price child, and what it cost him?

Woaa Bless his soul.(Beat Drop)You think you'll get away

Don't be scared of what you did to me.

You walked right into his plan

Run as fast as you think you can

Go back from wherever you came

You call the devil by any name

I know now who you play

Should've listened to what I say, what I say, what I say, YEAH!

I don't know if I'll be coming home again, home again, No I don't know if I'll be coming home.

Its a long road to hell without no soul.(Instrumental)(Beat drop)Since when do you think your getting away?

No escape with that deal you made.

You walked right into his plan.

Run as fast as you think you can.

Just go wherever you can!

Call the devil by any name

Ah no no who do you playing?

Should've listened to what I say

What I say, what I say, YEAH

Let me tell you its a hard road ahead without no soul.(Beat)
