

# Lifetime

## Usher

I can't let nothing come in between the two of us  
Cause it's like you're all I need since we've been together  
And whenever I'm in need of a little love  
It's okay for me to open up  
But I just can't give my heart to anyone cause  
Some only come in your life for a season  
And stay a while, giving you a reason  
To take temporary and think that it's forever  
But you've given me someone that I can believe in  
I know there will be times we can't come to an agreement  
But I know we'll figure out the ups and downs  
Tell me are you willing to take a chance? Baby, if so  
Here we go, here we go  
Let me put you in my hands  
Come on, come on  
I wanna be your man  
Let's do it right  
So that you be with me a lifetime  
Cause you know and I know  
Don't think that I'm talking crazy  
Your mama and my mama want some grand babies  
Tonight would you be with me a lifetime?  
I used to think it was hopeless and I should just give it up  
But I couldn't stop until I found myself a good girl to be in love  
I checked every state and city and looked all around the world  
And I'm proud to say that my search ends here  
Cause you're one in a million to me and I can't let you go, baby  
Some only come in your life for a season  
And stay a while, giving you a reason  
To take temporary and think that it's forever  
And you've given me someone that I can believe in  
I know there will be times we can't come to an agreement  
But I know we'll figure out the ups and downs  
Tell me are you willing to take a chance? Baby, if so  
Here we go, here we go  
Let me put you in my hands  
Come on, come on  
I wanna be your man  
Let's do it right  
So that you be with me a lifetime  
Cause you know, I know  
You know I ain't talking crazy  
Your mama and my mama want some grand babies  
Tonight be with me a lifetime  
Listen, seasons are truly meant to change  
However love can be the reason you fall  
But when you find that special someone

You be willing to give them a lifetime  
I love you and I chose you, follow me  
Some only come in your life for a season  
And stay a while, giving you a reason  
To take temporary and think that its forever  
And you've given me someone that I can believe in  
I know there will be times we can't come to an agreement  
But I know we'll figure out the ups and downs  
Tell me are you willing to take a chance? Baby, if so  
Here we go, here we go  
Let me put you in my hands  
Come on, come on  
I wanna be your man  
Let's do it right  
So that you be with me a lifetime  
Cause you know, I know  
You know I ain't talking crazy  
Your mama and my mama want some grand babies
