Come to Me

Laura Jansen

Give me some time to lift myself up I have been down for the count And all my self pride is gone like the winter Fresh like a flower I come aliveLove, come to me slow Love, come to me slowA compass gone blind My heart unsteady, hoping to dance on the wire I move a little bit and take it back Run away but with a map Always returning and turning and turningLove, come to me slow Love, come to me slowLa la la lalala lalala La la la lalala lalala lalala keep running, and running, and running I keep running, and running, and running I keep running, and running, and running I keep running, and running, and runningOver, up over that hill I'll find my peace, I will, I willLove, come to me slow Love, come to me slow, yeah Love, come to me slow Love, come to me slow
