

Miss You More

New Kids On the Block

Advisory - the following lyrics contain explicit language:

I finally took your pictures off the wall
It didn't even help at all, you're simply too beautiful
Got you frozen in a frame inside my mind
How can I forget your smile, even for a little while

[Bridge]

They say that time will take this pain away
Time will heal these scars you made
Time will give me back my heart again

[Chorus]

Do you even know what you do to me?
How I'm drowning in your memories
So hard to breathe, now that you're gone
Do you know it rips out the heart in me
Everytime I wake up, here alone

How can I move on

When all I do is miss you more, and more
Everyday I miss you more, and more
I know that I should walk away and close the door
But how is that possible, when you're so beautiful
And the fire in my heart it burns so bright
If I don't get you back tonight
The flames are gonna touch the sky

[Bridge]

They say that time will take this pain away
Time will heal these scars you made
Time will give me back my heart again
Do you even know what you do to me?
How I'm drowning in your memories
So hard to breathe, now that you're gone
Do you know it rips out the heart in me
Everytime I wake up, here alone
How can I move on
When all I do is miss you more, and more

Everyday I misse you more, and more
I hate the way I miss, I wish that I could kiss you
The way the crazy issues, they keep poppin up like tissues
One after the next, life is so complex
Used to wait up for your text
Now I drive what happnes next
Damn, I don t understand, I thought I was your man
Now I messed up all the plans
I be lying if I said I wasn t crying
Miss you more but I m tryina miss you less
Cause I m dying

[Chorus]

Do you even know what you do to me?
How I m drowning in yoru memories
So hard to breathe, now that you re gone
Do you know it rips out the heart in me
Everytime I wake up, here alone
How can I move on
When all I do is miss you more, and more
Everyday I misse you more, and more.
