

# Down on My Knees

## Jordan Family Band

You touch the crippled man  
And made him walk again  
And with a little lunch from a lad  
You fed 5,000 men  
You open blinded eyes  
Made the deaf and dumb to speak  
So I have no problem too big to take to thee

(Chorus)

Down on my knees  
I find the strength to carry on  
Down on my knees  
I find a friend when it seems I'm alone  
Down on my knees  
I find directions to carry me home  
Down on my knees  
I find it's where I belong

A loved one nigh to death  
Lord we need your healing hand  
And would you do again,  
As when you walked across the land  
And once with head and heart bowed low a cry the only sound  
But now giving God the glory from the imprint of knees on the ground.

(Repeat Chorus)

Tag:

Down on my knees  
I find healing from God alone  
Down on my knees  
The weary night doesn't seem so long  
And when I'm weak, I'm made strong and the battles I fought alone

Repeat Chorus.

I was sure of it all but the very last verse a couple words were hard to understand from the woman singer.
