

Monsters

Latent Anxiety

Verse A:

They, come from outer space.

To kill the human race.

Abuse and then destroy.

As if it was a toy. Verse B:

Back, in Area 51.

We left the things undone.

Observing us for long.

The UFOs were not wrong. Verse C:

Now, the aliens conquer earth.

To give their greed new birth.

Head for the milky way.

And find a new home bay. Chorus:

Monsters, in the dark.

Monsters, leave their mark.

Monsters, are right here.

Monsters, know your fear.
