

# Pilots

## Jet Life

Armoured cars sail the sky  
They're pink at dawn  
If I lived forever you  
Just wouldn't be so beautiful as the sun  
When it shines all over the world  
We're pilots watching stars  
The world pre-occupied  
We're pilots watching stars  
Who do you think we are?  
Ice and clouds shimmer outside  
Rain just falls at magic hour

It's just the sound of you and me  
Time twitching  
Murmurs of our friendly machine  
We're pilots watching stars  
The world pre-occupied  
We're pilots watching stars  
Who do we think we are?  
Sweetheart  
It's just the sound of you and me
