

# Die In the River

## Five Horse Johnson

my pony is swayin  
and the heart is a heavy load  
somebodys payin  
hand em over my soul  
Die here in the water  
the animal of my run  
no use in prayin  
gonna pay for what i've donethrow myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away  
throw myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away  
left my boat in the river  
love can't hold the way  
just about 6 feet under  
where the black heart lay  
can't ride with my maker  
can't ride with my god  
save work for the undertaker  
I finally finished the jobthrow myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away  
throw myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away  
throw myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away  
throw myself in the river  
wash my demons away  
I gotta go down stream and get somewhere far away, far away
