Who Am I

Andrew Judah

There is a heavy fog approaching
Something whispers in the night
Sacred voices all in chorus
Beckon me to rise and join the fight

Who am I

There is a darkness fast approaching
And a cloud that radiates with light
I am slowly changing over
I am ready now to join the fight

Who am I

There is a darkness fast approaching
And a cloud that radiates with light
I am slowly changing over
I am ready now to join the fight

Who am I
