

# She Is...

## Between the Trees

She opens up my bedroom door  
she's waking me up soon  
"i'm turning on the light" she warns  
it's the little things that you do  
she's the one that start's my day..  
my dear mom... my comforter  
my friend forever  
when life's right or wrong  
she is also my laughter  
Yet my sholuder to cry on

choris

my mom is my super hero  
my mom is my world ...]

all out of gas no place to go  
she knows just what i'll say  
she turns and laughs and opens up  
her purse  
and gives enough for the week  
she didn't have to give but she did  
it's just the kind of woman she is  
Love, she is love  
my dear mom...

Chorus

my mom is my super hero  
my mom is my world...]

Love is an action that she shows me often.  
even when it's not in her kisses  
blessed with a mom who puts herself after her children.  
it dosen't get much better than priceless...

Chorus

my mom is my super hero  
my mom is my world...]
