Hating Hate

The Suicide Machines

Hatred! a deadly disease
it's pumping through the veins of every being on the planet
or so it seems.."maybe you, not me"
i see it clearly through the red film on my eyes
that we must..... FIGHT!prejudice! our nation's biggest sickness
is taking place before our very eyes
i'm just as guilty as the next
and that i'll try to change
unfortunately, some aren't so easily persuaded
so we.... FIGHT! FIGHT HATRED!this doesn't have to be a physical war- NO!
reverse the ignorance to which we were born
and yes, this may become a violent fight
and we may never win but no one can ever say we didn't try
so we..... FIGHT!
