

# I Still Miss Someone (blue Eyes)

Stevie Nicks

Outside my door the rain is falling  
A cold, wild wind will come  
Well, there's someone for me somewhere  
But I still miss that one  
No, I never got over those blue eyes  
I see them everywhere  
And I miss those arms that held me  
Baby, when all the love was there  
Well, I wonder if he's sorry  
For ending what we had begun  
Well, there's someone, someone for me somewhere  
Baby, well, I still miss someone  
And I never got over those blue eyes  
I see them everywhere  
And I miss those arms that held me  
(I miss those arms)  
Ooh baby, when all the love was there  
And I never got over those blue eyes  
(Those blue eyes)  
I see them everywhere  
And I miss those arms that held me  
(I miss those arms)  
Baby, when all the love was there  
Baby, when all the love was there  
Baby, when all the love was there
