Put 'Em Down

Hush

I'm the next new kid not on the block
But I will knock your block off quick not with a glock
But two guns and knuckles that bring pain
It's a shame you couldn't spit venom on my nameIs it worth all the fame and money it's no joke
I done came from nothing to something it's so funny
How you could just start at the bottom so hot
Til they see you at spot when you got no productAnd the crowds do flock to see you
And the shot you got and it's hot to be you
And shocked to see through all the squat they feed you
You did not squeeze through in a plot they need youThe dude calling shots at the top could be you
Unless you get got and the rest it rings true
It's just the beginning of pain and my glory
Starts when I finish the end of this storyShake the ground
(Everybody move to the sound! Get up!)
We put 'em down, put 'em down, put 'em down now
Shake the ground
(Everybody move to the sound! Get up!)We put 'em down, put 'em down, put 'em down now
We put 'em down, put 'em down put 'em down now
We put 'em down, uh!See I float like a butterfly, you could fly like a bee
With a sting but could never fight me
Call it Bulletproof, Teflon with a voice
And track that hard just to put it through'Cuz it's a banger comin' in showin' the middle finger
Once I begin to flow you'll know anger
One dagger sharp with the tongue, I walk with a swagger
You seem to staggerOne slip of the jaw and Hush I'm Quick Draw McGraw
'Cuz me I see all see y'all fallout
Ballout on the streets and seize all
And beef I breath forTry me lyrically I'll bully and squeeze off 'til fully
See y'all I'll risk it
When your dogs to limp for bizkits call for this shitShake the ground
(Everybody move to the sound! Get up!)
We put 'em down, put 'em down, put 'em down now
Shake the ground
(Everybody move to the sound! Get up!)
We put 'em down, put 'em down, put 'em down nowI'm here, you've been waiting for me
You've been waiting to see, now that I'm here
I'll be right on the top of things, no you don't want it now
'Cuz we be poppin' thangs, no you don't want it
I said, "No you don't want it now"When I'm to hot you're lovin' it

When I'm not you're just not into the plot with no slug in it
Just not shot with a glock or Tupac in it
Must not be in a squad with no thug in it'Cuz I'm a breakthrough where I take you
Now I will shake you up like a quake and make it so painful
Pistols ain't playful it's the way crews act they erase you
If I'm to face you I'll replace you quickWhen I spit shit that's so graceful Mase will embrace you
So you better pray Jesu sways your way just to save you
Me I will never die, but I will live on in any song long as forever I
Live for the agony and defeat whatever it is I meet with no tragedyShake the ground
(Everybody move to the sound! Get up!)
We put 'em down, put 'em down, put 'em down now
Shake the ground
(Everybody move to the sound! Get up!)
We put 'em down, put 'em down, put 'em down nowWe put 'em down, put 'em down, put 'em down now
We put 'em down, get up
We put 'em down, put 'em down, put 'em down now
We put 'em down, oh
