

# Blindfolds (feat. Nation)

[K. Sparks](#)

[Nation]Ashes to ashes, I jump on tracks and attack it

I kick it just like an addict

It's hard to padic my fabric

My flow is so acrobatic

Ashes to ashes, I jump on tracks and attack it

I kick it just like an addict

It's hard to padic my fabric

My flow is so acrobatic

Lord live through my actions, the only thing that I'm ...

The love is part of the fact...

Sown from a different cloth, take a spoon with it's apples

So stab me now bananas, for jesus I go bannaning

He could teach in the stadium...

Overdosing on sodium

Someone sicker than you, like babies catching the flu

[Hook]

Bring it all down, bring it all down

Down with the king, everybody want the crown

Bring it all down, bring it all down

Down with the king, everybody want the crown

Bring it all down, bring it all down

Down with the king, everybody want the crown

Bring it all down, bring it all down

Down with the king, everybody want the crown[K. Sparks]

From the planet of Queens, see December again

The e train of the jay, we rockin timbalands

Fitted low, fitted low, bout to blow quick

Let it go, let it go, keep the flow switched

But I'm back into it, do it

Put it back into the back of the buick

With a cat pursuit it with the truants they get to it

Rap music I teach it, do it bring it back to people the knew it...

We keep it flowing and going as they pursuing

Listen man, listen man, be more conscious with what you saying

Cause these kids they be relatin, everything that you be sayin

When you try help the blatant so they label you a satan

Take a view of better nation, everything that you be taking

Yeah, so what's the purpose, you ain't livin with no purpose

Never even scratch the surface, And you wanna meet the ?

Let it bang, interpretation built into the ceiling  
Let it rain, we trippin steady in it, when they dealing guns, bang

[Hook]

Bring it all down, bring it all down  
Down with the king, everybody want the crown  
Bring it all down, bring it all down  
Down with the king, everybody want the crown  
Bring it all down, bring it all down  
Down with the king, everybody want the crown  
Bring it all down, bring it all down

Down with the king, everybody want the crown Yeah, but I'm back on the scene, moving at the back up with my  
team

Bump with a truck that fit between  
All the lines they know I mean...  
Wanted for the crimes, automatic with the 9's  
Think fall, think close, we don't pay em any mind  
Move it, move it, doing music, music  
Only what you do for ...i'm an addict  
Now my mama cook it in the kitchen, finger lick it on the missions  
I'mma lookin in my vision, nigga sitting in decision  
Steady making indecision, never had a pot to piss in  
Everybody hustling, smuggling, odds  
Everybody struggling or jugglin like 3 jobs  
Tryina get it, tryina get it, tryina get it

If you down with the ...then you already admit it, get it now[Hook]
