So Long

Tony Lucca

It's not like me to leave long messages
It's not like me to call at all
And who would've thought you'd find me walking 'round in circles
My head steady banging up against the wall
And who's to say that it ain't perfectly normal
Wasting all my time as I'mCHORUS:
Starin' at your picture
Still in its frame
The smile that you gave me
As I called your name
Just tell me he needs you
The way that you need him to
Tell me he loves you
The way I tried to...
For so longIt's not like me to go 'round wondering
It's not like me to give a damn
'Cause everybody knows that I'm the kind of fool
Who has to have the last word, the upper hand
Either way, the end of the day
Will gonna find me
Wastin' all my time as I'mCHORUSSo long...It's so easy for you to say
It's so easy for you to say
It seems it's so easy for you to say
Goodbye
GoodbyeStarin' at your picture
Still in its frame
The smile that you gave me
As I laughed at your nameTrying to forget this
Trying to move on
Trying to figure out why it's taken so long
To come to my senses
Swallow my pride
Find me a shadow, a safe place to hideJust tell me he needs you
The way that you need him to
Tell me he loves you
The way I tried to...
For so long
So long...
I guess it's so long, so long...
