Alvin (1998 Version)

Dynamite Hack

i am back again
to the safety of my couch
with my best friends
the ones who never let me outi met a girl
her name was bovine
took her home with me last night and..** i am so happy here
and i never have to try
(to be to feed)
sit back and drink some beers
and go date-rape with the guys...
in Alvin... in Alvin....woke up at ten
light my cigarette
got drunk again
just to drown out my regrets..yeplying naked
just wearing this stupid grin
i am vacant
but in this town i fit right in..so** i am so happy here
and i never have to try
(to be to feed)
sit back and drink some beers
and go date-rape with the guys...
in Alvin...eating pork and drinking wine
everything's just fine
eating pork and drinking wine
everything's just fine
