Mystery Spot Polka

Brave Combo

Natural law is predictable and clear, but not here
Step into the mystery spot
You sir and you ma'am, it's all insideCome along and dance, dance, dance
Come along and dance to the mystery spot polka
Scientific evidence can't explain the dance
It's called the mystery spot polkaPoltergeists or polka guys
Let the spirits rise, supernatural as can be
Come along and dance, dance, dance
Feels as if the house repealed the laws of gravityCome along and dance, dance, dance
Come along and dance to the mystery spot polka
Come along and play the game
Indeed without a name called the mystery spot polkaMysteries will be revealed
Wheel within a wheel in a machinery of grace
Every spot's a mystery spot
Planet earth's a polka dot a spin in outer spaceThis way to the egress, ladies and gentlemen
Thank you for your kind attention
Watch your step, please
