

# Mystery Spot Polka

## Brave Combo

Natural law is predictable and clear, but not here  
Step into the mystery spot  
You sir and you ma'am, it's all insideCome along and dance, dance, dance  
Come along and dance to the mystery spot polka  
Scientific evidence can't explain the dance  
It's called the mystery spot polkaPoltergeists or polka guys  
Let the spirits rise, supernatural as can be  
Come along and dance, dance, dance  
Feels as if the house repealed the laws of gravityCome along and dance, dance, dance  
Come along and dance to the mystery spot polka  
Come along and play the game  
Indeed without a name called the mystery spot polkaMysteries will be revealed  
Wheel within a wheel in a machinery of grace  
Every spot's a mystery spot  
Planet earth's a polka dot a spin in outer spaceThis way to the egress, ladies and gentlemen  
Thank you for your kind attention  
Watch your step, please
