Blame on You

Outtrigger

First in line
Waiting for the call
See the sign
We're prepared to fall
We're embraced by the bullets in the haze
I'm not backing outIn your eyes
There's a fire
don't let it die
just consider it true
consider it youThey have broken me down,
fed me the lies
Forced by command,
I'm not giving up
But in the end,
I won't put the blame on you
It's fight or the end,
action condemned
This is how people of arms begin
But in the end,
I won't put the blame on youHard to see
When they let 'em die
kicked the door
shooting in the sky
She said son
just don't let 'em give their guns
we're not backing outIn your eyes
There's a fire
don't let it die
just consider it true
consider it youThey have broken me down,
fed me the lies
Forced by command,
I'm not giving up
But in the end,
I won't put the blame on you
It's fight or the end,
action condemned
This is how people of arms begin
But in the end,

I won't put the blame on youFeared that I
Couldn't take the bloody lies
But'll make sure
that the blood in their veins run staleThey have broken me down,
fed me the lies
Forced by command,
I'm not giving up
But in the end,
I won't put the blame on you
It's fight or the end,
action condemned
This is how people of arms begin
But in the end,
I won't put the blame on you
