To Love

NobleStarr

LYRICS
I fell low down
And I saved your life

I made a mistake
When I saved your life

I gave you love
And protected you

You always be in my heart

I will love you
Till you learn to love

Am trapped here with you
And your brilliant mind

I know that when we
Learn to love
We shall be set free

I flew down
Want to save a life

I gave you life
When I saved your life

I made you smile
And protected you

You will always be in my heart

I will love you
Till you learn to love

Am trapped here with you
And your brilliant mind

I know that when we

Learn to love
We shall be set free

Love me, and protect me
From the war outside
Of my heart

My powers are greater
Then you are
You always be in my heart

Love me, and protect me
From the war outside
Of my heart

My powers are greater
Then you are
You always be in my heart

I will love you
Till you learn to love

Am trapped here with you
And your brilliant mind

I know that when we
Learn to love
We shall be set free

I fell low down
And I saved your life

I made a mistake
When I saved your life

I gave you love
And protected you

You always be in my heart
