

Blue Christmas

Heartless Bastards

I'll have a blue christmas without you
I'll be so blue just thinking about you
Decorations of red on a green christmas tree
Wont be the same dear,
if you're not here with me And when those blue snowflakes start falling
That's when those blue memories start calling
You'll be doin all right, with your christmas of white
But I'll have a blue, blue, blue christmas
You'll be doin all right, with your christmas of white,
But I'll have a blue, blue, blue christmas
