Upside Down

Zoegirl

Upside down
Everybody's searching for something
Something that they can call their own
Wishing, hoping, waiting for empty skies to open up
But they don't
What's up with all the obsession?
What's in and what's out that's what it's about
Still we dream of better
Fearing nothing's gonna ever be right, yeah
All along, don't you know that you can't break free?
Take a look and see what's your reality
Upside down, spinning round and round
Happiness may not be what it seems
Inside out, alone without a doubt
Is your heart until he sets you free
From all of this reality
Oh, you know the world is so crazy
It'll chew you up, spit you out
Leave you feeling empty inside
Filling your head with little white lies
Jesus is the only reason
That my heart is free to say
You could dream a thousand dreams
And have a million things
But nothing could replace
The love that Jesus gave
All along, don't you know that you can't break free
Take a look and see what's your reality
Upside down, spinning round and round
Happiness may not be what it seems
Inside out, alone without a doubt
Is your heart until he sets you free
From all of this reality
Talk shows, ecstasy, horoscopes, DVD's
Pop culture, magazines, chat rooms, MTV
Protein diets, internet, the story isn't over yet
The psychic network really cares
Who wants to be a millionaire?
Upside down, spinning round and round

Happiness may not be what it seems
Inside out, alone without a doubt
Is your heart until he sets you free
From all of this reality
