

# I Know How the River Feels

## Diamond Rio

They say for everyone, there's that certain one  
Out there, somewhere  
I'd been looking hard, searchin' every heart  
Getting nowhere  
Didn't know, I was makin' my way to you Now I know how the river feels  
When it reaches the sea  
And finally finds the place  
It was always meant to be Holdin' fast, home at last  
Knowing the journey's through  
Lyin' here with you  
I know how the river feels Miles of loneliness, now make perfect sense  
Here beside you  
Tears like water fall, it was worth them all  
Just to find you  
And yours are the last arms I'll run to Now I know how the river feels  
When it reaches the sea  
And finally finds the place  
It was always meant to be Holdin' fast, home at last  
Knowing the journey's through  
Lyin' here with you  
I know how the river feels Holdin' fast, home at last  
Knowing the journey's through  
Lyin' here with you  
I know how the river feels Oh, I know how the river feels
