

Terminal Illusions

Meshuggah

I don't need religion God bless no one
Me and my own opinion's are written by me
You surrender under mass hypnosis
Bound to illusions produced by your God Who is human
Real alive no God I see your blindness erase your identity
Your mind is hollow carved to inability
I know to be loyal to myself
My integrity leaves myself alone in peace with me God
There's no God life is a trap
Unlock your mind trust in yourself Wake from the grip of the tongue
You've been choked oppressed
God own's God cheat's God lie's
God hate's God kill's God slay's The pressure on humanity has risen beyond control
We are leading evolution into termination
The sense of hate inbreeding scars to innocence
Genetic prejudice a selfdestructive line in pain Why this reality
Life poured into inanity
