

# Caligula

## Noblesse Oblige

Hush the neighbors hear you moanin and groanin  
But I just can't help it specially when we be bonin  
    "I can take you fears away"  
    I could not believe it  
    Hey what's your name?  
        Beau doh doh dah  
    He's something like my favorite movie  
        Beau doh doh dah  
    I wanna see him again and again  
        Beau doh doh dah  
    He's like my disco - He's really groovy  
        Beau doh doh dah

When we go out I'm gonna let him inHe wanna fight and make me feel like nothing  
    Never lovin but we're always fuckin  
    "I can take you fears away"  
    But I kinda miss them now that they've gone astray  
    Hey what's your name?  
        Beau doh doh dah  
    He's something like my favorite movie  
        Beau doh doh dah  
    I wanna see him again and again  
        Beau doh doh dah  
    He's like my freight train - He's really move me  
        Beau doh doh dah

When we go out I'm gonna let him in  
    Beau doh doh dah  
    He's something like my 7 eleven  
        Beau doh doh dah  
    He got me open like an all night store  
        Beau doh doh dah  
    He's like my blue sky - he's next to heaven  
        Beau doh doh dah

He give me some and then I want some moreI could not believe it  
    Hey what's your name?  
        Beau doh doh dah  
    He's something like my favorite movie  
        Beau doh doh dah  
    I wanna see him again and again  
        Beau doh doh dah

He's like my disco - He's really groovy  
Beau doh doh dah  
When we go out I'm gonna let him in
