

# Unholy Thoughts

## Kele

I met the devil last night at an after show  
And then he led me in a cab  
No more coke heads, no more cocaine  
You're getting sloppy and someone has  
Someone has to say Here is bad  
Here is bad  
Here is bad

Here is bad I hear their thoughts now before they speak  
I feel their eyes now go through my soul, accusing me  
We're only partners, between the day  
And these thoughts they multiply  
And one by one become unholy Here is bad  
Here is bad  
Here is bad

Here is bad The mind is powerful  
The mind is powerful  
But it will not work  
It will not work In reverse  
In reverse  
In reverse  
In reverse
