## If Only

## **Outlandish**

It's all so quiet in here If only, I got's to do this

If only, yeahI know I'm takin' ya for granted as hell

Don't care, never talk, when we do, not well

Come home, all tired and straight to bed

You be like, remember salat? And I'ma go, forget that I missed the first 4

Anyhow can't deny my conscious is broke

Double standard, 100, ask me why and I choke

Sistas stay home while brothas hit the clubsTale spinning on fast lanes, drinking all up

I give a damn about you'd walk a 1000 miles for me

I won't even go down to the nearest corner shop for ya

Food on the table every time I run home

Praying while the TV is on, my focus all goneCan't take ya serious when ya blame me for ya misery

Why can't ya be mo like his or her son, I'm sick of it?

I wish I could turn back the hands of time if I could

If I could I would be ya perfect son

Instead of dropping the tears in du'Ooh my friend, can't take it anymore

The pain, the rain, the good times missin', help me sing

If only we could be down

If only we'd work it out now

If only we'd be strong, we got's to keep on holdin' on It wasn't love at first sight, not even the first night

Came later build on mutual respect insight

Ok we argue a lot ya told u I was leaving

So we say stupid things when we mad but we don't mean 'emCome on how did u expect us to connect so fast

We knew zero about each other got hooked up by my mother

U was digging Bollywood while I was in to beats and rhymes

Before it all was about me, now it's all about us You see relationship's build on support and trust

And we had cracks in both, we came close to a divorce

Then he came in and things got better we thought

All though diapers for our baby's bootie we could barely affordFor now me and you we scrubbing floors together

But someday Inshallah we gonna floss together

It's been a bumpy ride so far but we'll face it together

No matter how the weather, it's me and you and ours forever, foreverOoh my friend, can't take it anymore

The pain, the rain, the good times missin', help me sing

If only we could be down

If only we'd work it out now

If only we'd be strong, we got's to keep on holdin' onSi solo yo pudiera

Viajar en el tiempo

Si solo yo pudiera

Volver por un momentoY sentarme junto a usted

Y hablar de hijo a padre

Sentarme junto a usted

De amigo a compadreLe dira hay una cosa que no se debe de olvidar

La familia es lo primero, es elemental

Pero supongo que en este punto

Somos diferentes y como reprocharle

Si usted es el ausenteY ahora que ya no esta de que sirve

No se quien tuvo la culpa pero una cosa quiero decirle

Mi madre me hizo hombre

Ella es fuerte y con orgullo

A ella le debo todo mi pasado mi futuroWhy, why so quiet?

Baby ya think by now we'd knew any better

Why all this fightin'?

Maybe we should talk instead of all this hidin'Help me sing

If only we could be down

If only we'd work it out now

If only we'd be strong, we got's to keep on holdin' on If only we could be down

If only we'd work it out now

If only we'll be strong

No matter the rain, the pain, ain't nobody hold us down

Nobody holdin' us down

No more, oh noWhy why why?
