Kids

Two Door Cinema Club

Why do you always talk about
The wrong way in and the wrong way out?
It's only going to be as easy
As you make it for yourselfTalk, talk, talk
Don't you know where you want to go
Start something new
That you know where you want to goWhat did I teach you
That money didn't know?
What have you learnt
Is by far it goesThey're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you knowWhat did I teach you
That money didn't know?
What have you learnt
Is by far it goesThey're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you knowI've been thinking of a way
To get out of what I have made
If only I could tell myself
To be a little more productiveTalk, talk, talk
Don't you know where you want to go?
Start something new
That you know where you want to goWhat did I teach you
That money didn't know?
What have you learnt
Is by far it goesThey're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you knowWhat did I teach you
That money didn't know?
What have you learnt
Is by far it goesThey're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you know
