

Kids

Two Door Cinema Club

Why do you always talk about
The wrong way in and the wrong way out?
It's only going to be as easy
As you make it for yourself Talk, talk, talk
Don't you know where you want to go
Start something new
That you know where you want to go What did I teach you
That money didn't know?
What have you learnt
Is by far it goes They're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you know What did I teach you
That money didn't know?
What have you learnt
Is by far it goes They're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you know I've been thinking of a way
To get out of what I have made
If only I could tell myself
To be a little more productive Talk, talk, talk
Don't you know where you want to go?
Start something new
That you know where you want to go What did I teach you
That money didn't know?
What have you learnt
Is by far it goes They're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you know What did I teach you
That money didn't know?
What have you learnt
Is by far it goes They're my kids, you know
They're my kids, you know
They're my kids, you know
They're my kids, you know
