

Never Try

Down

Close the door
Lay in bed
Cigarette
Aching head Never try, never try
You either do it
Or don't waste my time
No, no, never try Frustration
Out patient
Handcuffed man
To himself Navigate slowly
A step at a time
Towards the law Never try, never try
You either do it
Or don't waste your time Never try, never try
You either do it
Or don't waste your life Try Never try, never try, never try
You either do it, do it, do it
Or don't waste the time Shreds of life
Eyes cried dry
Touch no thing
Burned outright Navigate slowly
A step at a time
Towards the law Never try, never try
You either do it
Or don't waste your time Never try, never try
You either do it
Or don't waste your life Never try, never try
You either do it
Or don't waste my time
