

Sylsb

Save Ferris

Support your local ska band even tho they just may stink
Support them despite what the real musicians just might think
It's ok to lower standards in the name of a good cause
You can bend the rules for us this time and give us your applause

SYLSB

It means so much to me

SYLSB

It's tough to play for free

SYLSB

Why can't they see

It's hard to be a ska band

When you live in a lonely

Punk land

SYLSB

No I didn't say LSD

Throw away your PCP

And get the hell away from me

When everything should be OK

But it never ever seems to work out that way

SYLSB

It means so much to me

SYLSB

It's always tough to play for free

Why can't they see

It's hard to be

A lonely little ska band

When you live in Orange County

Punk land

OC
