

What Do You See In Her

[Dakota Staton](#)

What do you see in her
She has two arms to hold you tight
and so have I
Two lips to kiss you day and night
and so have I
What do you see in her
That you didn't see in me Why did we say goodbye
Was she so wonderful that she could make us part
And does she whisper pretty words
That touch your heart
What do you see in her
That you didn't see in me Every time I see you together
I smile and say hello
But I can't help wondering whether
You see inside
These tears I hide What do you see in her
What is she doing in your arms
Where I belong
What is she doing right
That I was doing wrong
What do you see in her that you didn't see in me
What do you see in her that you didn't see in me
