# Islands (Nosaj Thing Remix)

## The xx

I don't have to leave anymore
What I have is right here
Spend my nights and days before
Searching the world for what's right hereUnderneath and unexplored
Islands and cities I have looked
Here I saw
Something I couldn't over lookI am yours now
So now I don't ever have to leave
I've been found out
So now I'll never exploreSee what I've done
That bridge is on fire
Going back to where I've been
I'm froze by desire
No need to leaveWhere would I be
IF this were to go under
It's a risk I'd take
I'm froze by desire
As if a choice I'd makeI am yours now
So now I don't ever have to leave
I've been found out
So now I'll never exploreSo now I'll never explore
